COMPANY BIO

Electronic Warfare Professionals (EWP), LLC is an American Indian owned (8a) and Service-Disabled Veteran Owned Small Business (SDVOSB) with over 20 years of expertise in Electronic Warfare (EW) and Electromagnetic Spectrum Operations (EMSO). **EWP** provides comprehensive systems engineering and training solutions, with a focus on innovative approaches and real-world applications. Our team is comprised of senior military tacticians, technicians, and managers with extensive fleet experience across various military domains. **EWP** is recognized for its leadership in supporting critical commands such as the Naval Information Warfighting Development Center (NIWDC), and the Naval Surface and Mine Warfighting Development Center (SMWDC). EW training services supporting various commands including Naval Information Warfighting Development Center (NIWDC), Naval Surface and Mine Warfighting Development Center (SMWDC), Surface Combat Systems Training Command (SCSTC), Center for Information Warfare Training (CIWT), Navy Program Executive Office for Integrated Warfare Systems (PEO-IWS), and Navy Research Laboratory (NRL).

CORE COMPETENCIES

- Embedded Training Systems
- Curriculum Development
- Modeling and Simulation
- Combat Systems Training
- Ballistic Missile Defense (BMD)
- Electromagnetic Spectrum Operations (EMSO)
- Integrated Air and Missile Defense (IAMD)
- Electronic Warfare Systems
- Decoy Launching Systems
- Joint Tactical Terminal (JTT)
- Test and Engineering Support
- Scenario Development

DIFFERENTIATORS

EWP is committed to helping customers achieve their mission objectives, particularly in Electronic Warfare and associated disciplines. Our employees bring unparalleled expertise, combining military experience with advanced technical training. We specialize in creating innovative solutions that directly address both current and future operational challenges.

- Cleared Top Secret SCI Professionals
- ISEA and vendor-trained engineers
- Master Training Specialist, CIB, and IAMD Combat System Certified Instructors
- Extensive fleet experience in BMD, IAMD, EW, Information Operations, C4ISR, AEGIS Combat Systems (ACS), and Ships Self Defense Systems (SSDS)

PAST PERFORMANCES

Navy Marine Corps Spectrum Center (NMSC) Technical Support

Contract No.: N00189-17-D-Z028 | Amount: \$372K

Provided EMSO and EW SME support to NIWDC for advanced training system integration, doctrine development, and Fleet-aligned requirements. Conducted training gap analysis, authored POM documentation, and contributed to NCTE interoperability and system specification efforts.

NAVSEA PEO IWS – Electronic Warfare Training Systems (EWTS)

Contract No.: N0024-19-C-5601 | Amount: \$33.7M

Delivered SME support for EW training systems and electromagnetic spectrum visualization applications. Provided requirements analysis, scenario development, and software/user documentation to support EW training modernization.

Naval Research Laboratory (NRL) – Advanced EW Techniques Support

Contract No.: N00173-17-D-2003 | Amount: \$45.6M

Provided EW/EMSO expertise to support development of AI-enabled applications and advanced spectrum operations tools. Contributed to system requirements definition, architecture design, and technical documentation for **emerging EW capabilities**.
